

Aggredium (www.aggredium.com) is a growing FinTech company based in London. We independently provide fundamental financial data for private and public companies in European sub-investment grade credit market. Our ambition is to deliver accurate financial data combined with state of the art technology and analytics that enable our clients to make superior investment decisions.

We have **open positions** for a **senior financial analyst, junior financial analyst and internships** at our newly established site in Vilnius. Team of financial analysts will have a key task to collect, analyze, standardize financial data of various European companies. It may be a lifetime opportunity to join a rapidly growing start-up company, develop advanced financial analysis competences and BI skills of the future.

Ideal candidate should

- Be a student in Economics, Finance, Business Administration for internship or junior position;
- Or have at least bachelor degree for senior position;
- Have strong academic knowledge;
- As well as good analytical skills and critical thinking;
- Have fluent English speaking writing skills;
- Be an advanced Microsoft Office user (especially MS Excel);
- Have at least 2 years of experience in Banking, Accounting/Auditing, Management Consulting or other Financial Service related business for a senior position;
- Be eager to work in a leading company in Financial services sector.

If you are ready for a career in a dynamic organization and have relevant experiences, please send your CV and cover letter for our local partners to info@incapital.lt till 23rd of December. **Please include results of high school graduation exams.** Only selected candidates will be informed.
